---

EDUCATION

SSC from Sheth Dhanjisha Rustamji Umrigar Memorial School
Percentage: 77.67
HSC from St. Xavier's High School
Percentage: 66.15

G.H Patel College of Engineering & Technology
B.Tech in Computer Science Engineering (IoT), 2022 –2026
Current GPA: 9.17/10.00

PROJECTS

Simple responsive website

[Github link:- https://github.com/KushMody/STUDYSYNC]

Technologies: HTML, CSS, JS

- Just a simple responsive website direct website.
- My First HTML, CSS and JS project.

Basic React app (PASTE-APP)

[Github link:- **https://github.com/KushMody/PasteApp**]

Technologies: React, Node.js, MongoDB, HTML, CSS

My job was to create the front-end

- Designed and developed by me a paste website to create a paste and store it in local Storage.
- Some basic things of react like redux is used.
- Simple CRUD Operation can be done on it.
- And due to the use of React it uses AJAX calling.

CAPTCHA System for Django Authentication

[Github link:- https://github.com/KushMody/DjangoCaptchaProject]

Technologies: Django, Python, JavaScript

- Created a CAPTCHA-based security feature for user authentication in Django applications.
- Generated CAPTCHA images dynamically without storing them.
- Improved security by preventing automated bot registrations and spam.
- Optimized user experience by ensuring readability and accessibility.

EXTRACURRICULARS

- **Member, Rotaract Club (2024-Present)** – Coordinated in some of the college events like Technica.
- **Web Development** – Worked on multiple simple projects on web development like my sister's website.
- **Game Development** – Worked on some projects using Unreal Engine and Unity.
- **Active Gym Enthusiast** - Focusing on weight loss and fitness improvement.

SKILLS

Technical Skills:

Programming Languages: C, C++, Python, Java, JavaScript
Software Development: Data Structures and Algorithms, OOP, Computer Networks, DBMS, COA
Web Technologies: HTML, CSS, Tailwind CSS, Express.js, Node.js, React.js, Redux, Django
Databases & Tools: MongoDB, Postman, Git, GitHub, Figma

Soft Skills:

Problem-Solving: Preparing for GATE, working on algorithmic problems.
Project Management: Built multiple projects (CAPTCHA, e-commerce website, etc.).
Time Management: Balancing academics, gym, and project development.
